# PIT AND FISSURE SEALANT CLINICAL PATIENT WORKSHEET

**Student's Name__________________________ Date__________________________**  

**Faculty's Name__________________________ Patient's Name__________________________**

Use this worksheet to identify errors in procedures. Place a check mark in the box each time a step in the procedure is incorrectly performed or omitted.

*In some cases, a specific procedural step that is identified by an asterisk will require that this step must be correctly performed as improper performance would cause harm to the patient and/or cause failure to the sealant.*

<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### Etchant Placement
1. Place etchant onto enamel surfaces to be sealed; extending beyond the anticipated sealant area with etchant, but not extending onto the inclines or ridges. *
2. Allow etchant solution to remain for 15 seconds.
3. Thoroughly rinse removing etchant, while keeping teeth isolated. If teeth become contaminated, re-etch for 10 seconds, and rinse again.
4. Thoroughly rinse tooth surfaces for at least 20-30 seconds followed by dyeing for 20 seconds. Etchant pattern will not appear on typodont tooth.

### Sealant Placement and Curing
1. Express small drop of UltraSeal XT plus at the end
2. Express another small drop; lightly paint on until desired amount is reached. Sealant materials appear thin. Once in place sealant will thicken.
3. Polymerized sealant by curing light. Hold light as close to surface as possible without touching materials (1-2mm). Standard curing light-cure for 20 seconds; high energy curing light-cure for 10 seconds.
4. Check the void area, bubbles, etc. with explorer. If sealant needs to be added and surface is still not contaminated, add sealant and cure. If surface is contaminated, repeat etchant for 10 seconds, rinse, dry.
5. Using a dampened cotton roll, gently remove the inhibition layer from the sealant surface.
6. Remove isolation materials, rinse and dry.
7. Check contact with floss.
8. Check occlusion with articulating paper
9. Reduce any high areas on the sealant with composite stone.

### Patient Education (not provided during laboratory experiences)

### Infection Control-Patient Safety Clean-Up
1. Remove barriers on the chair, unit, light, air/water syringe, hose, HVE, saliva ejector, headpiece.
2. Surface disinfect areas that are not covered with barriers
3. Prepare and institute sterilization procedures

UPDATED MEDICAL HEALTH HISTORY FORM

Name: ........................................................................ Date of Birth: ..........................................................

Your Physician's Name: ...........................................................................................................

Your Physician's Address: ........................................................................................................

Briefly describe your general health. ..........................................................................................

Directions: Circle YES or NO to the following:

1. Have you ever had any of the following:
   - Measles ............................................ YES NO     Jaundice ....................................................... YES NO
   - Epilepsy ........................................... YES NO   Venereal disease ................................................ YES NO
   - Diabetes ........................................... YES NO     Rheumatic fever .......................................... YES NO
   - Tuberculosis .................................... YES NO   Chicken Pox .................................................. YES NO
   - Heart Attack .................................... YES NO        Hepatitis ...................................................... YES NO
   - Mumps ............................................. YES NO    Stroke ............................................................ YES NO
   - Ulcers .............................................. YES NO        Asthma ......................................................... YES NO
   - Thyroid Disease ............................... YES NO   Anemia .......................................................... YES NO
   - Liver Disease ................................... YES NO    Emotional disease ....................................... YES NO

2. Have you been examined by a physician in the last year? .................................................... YES NO

3. Have you ever had a serious illness? ..................................................................................... YES NO

4. Has there been any change in your health in the last year? .................................................... YES NO

5. Have you ever had surgery? (An operation) ........................................................................... YES NO
   Please indicate what type of surgery _____________________________________________________

6. Have you gained or lost much weight recently? ................................................................. YES NO

7. Have you ever been treated for ear or eye trouble, other than corrective glasses? ............. YES NO

8. Do you bleed for a long time when you cut yourself? ........................................................... YES NO

9. Have you ever had hives or a skin rash? ................................................................................... YES NO

10. Have you ever been told you have heart trouble? .............................................................. YES NO

11. Do you get out of breath easily? ............................................................................................ YES NO

12. Do you have spells of dizziness? ............................................................................................ YES NO

13. Do your ankles ever become badly swollen? ......................................................................... YES NO

14. Do you have high blood pressure? ....................................................................................... YES NO

15. Have you ever been told that you have a heart murmur? .................................................... YES NO

16. Do you have any blood disorder? .......................................................................................... YES NO

17. Do you have asthma, hay fever, sinusitis or frequent sore throat? ....................................... YES NO

18. Have you ever had tuberculosis, emphysema or other lung disease? ................................. YES NO

19. Do you have stomach trouble, frequent diarrhea or constipation? ...................................... YES NO

20. Have you ever been told you have kidney or bladder trouble? ........................................... YES NO

21. Have you ever had syphilis or gonorrhea? .............................................................................. YES NO

22. Do you ever have fits, convulsions or seizures? ..................................................................... YES NO

23. Do you have arthritis or joint trouble? .................................................................................. YES NO
24. Are your joints often painfully swollen? ................................................................. YES NO
25. Have you had a general or local anesthetic? ............................................................. YES NO
26. Have you often had toothaches? ............................................................................... YES NO
27. Do your gums bleed when you brush your teeth? .................................................... YES NO
28. Do your gums itch when you brush your teeth? ....................................................... YES NO
29. Does it hurt when you chew? .................................................................................... YES NO
30. Do you have any problems with your jaws? .............................................................. YES NO
31. Do you clench or grind your teeth? .......................................................................... YES NO
32. Have you ever had an injury to your face, neck or jaw? .......................................... YES NO
33. Do you suffer from frequent or severe headaches, neck or back pain? ............... YES NO
34. Have you ever received x-ray or radiation therapy to the head or neck? .......... YES NO
35. Do you have ear pain or pain in front of the ears? .................................................. YES NO
36. Does your jaw feel tired after a big meal? ................................................................. YES NO
37. Must you chew on one side exclusively? ................................................................. YES NO
38. Is your sleep disturbed by pain of the head and neck region? .............................. YES NO
39. Are your daily activities or routine disturbed by pain of the head and neck region? YES NO
40. Do you consider yourself a nervous person? ............................................................ YES NO
41. Do you feel unhappy or depressed? ........................................................................YES NO
42. Are you easily upset? ................................................................................................YES NO
43. Are you sensitive or allergic to any medicine? ....................................................... YES NO

Are you sensitive or allergic to any of the following?
Penicillin…………………………YES NO  Novocain…………………………YES NO
Aspirin……………………………YES NO  Iodine………………………………...YES NO
Codeine…………………………..YES NO  Sleeping pills…………………………YES NO
Other: ___________________________________________________________________

44. Do you smoke or use tobacco? ............................................................................... YES NO
45. Do you drink alcohol daily? .................................................................................... YES NO
46. WOMEN – Are you pregnant? ............................................................................... YES NO
47. WOMEN – Are you in or have passed through menopause (change of life)? ..........YES NO

When did you last have radiographs (Full Mouth X-rays – 18-20 images) taken?

MEDICAL HEALTH STATEMENT

I, ______________________________________________ hereby declare that to the best of my knowledge and belief, I do not have or have not had in the past any systemic condition that can affect the pit and fissure sealant procedure. The disclosures of any of these conditions have been included in my medical health history. These systemic conditions include but are not limited to: heart and/or kidney disease, herpes simplex, hepatitis, diabetes, epilepsy, positive HIV, AIDS, organic heart murmur and heart valve replacement. Disclosures of these conditions have been forthcoming on my signed and dated medical health history.

I also acknowledge that Fullerton Dental Assistant School or any participant in the pit and fissure sealant certification course will maintain and keep all course related documents confidential.

PATIENT RELEASE FORM

I hereby give my permission for a pit and fissure sealant to be performed on me as part of a clinical requirement for pit and fissure sealant certification.

I understand that no charge will be made for the service performed. In consideration thereof, I hereby agree to waive, release, hold harmless, defend and indemnify, as against any and all claims I or my heirs may have now or in the future against its principals and/or agents, arising out of or resulting from my voluntary participation as a patient in the dental trainee program.

I have read and I understand the terms of this agreement.

Patient Criteria Form

Date_______________________

Patient Name______________________________

The patient named above has been examined by the faculty member and meets the following criteria:

• Patient must be 18 years of age or older.

• Patient must be in good health. (A medical history form will be completed prior to treatment and approved by the instructor.)

• Each patient will have a minimum of four (4) virgin, non-restored, natural teeth, sufficiently erupted so that a dry field can be maintained. In addition, each patient will have a minimum of one tooth in all four quadrants.

• Patients with another 4 qualifying teeth (1 tooth per quadrant) can serve as an additional patient.

• Third molars (#1, 16, 17, and 32) cannot be used to be sealed.

Instructor Signature_____________________________________________

Instructor Name ________________________________________________
(Student’s name) is a student enrolled in the Dental Assistant Program of Fullerton Dental Assistant School. In order to comply with the requirements set forth by California Dental Board on placement of pit and fissure sealants, the student needs for you to examine _____________________________ (Patient’s name) for placement of sealants.

Please mark all the teeth that could be sealed with “S” on the occlusal surface on the chart provided. There needs to be at least one tooth each quadrant. The instructor will determine which teeth will be sealed on the clinical setting. Thank you for your support in the Dental Assisting Program.
